Villa Guide

About the Villa

The Story

This antique villa has a Caribbean Colonial design, with Regency style shutters, a continental reminder you are currently in Paradise. The villa is surrounded by large shaded balconies, to lime with friends or just sit and take in your surroundings.

This villa once served as the away accommodations for Pilot's Association of Trinidad and Tobago. It's current owners chose the name as a nod to the men and women who safely navigate ships into our harbor.

The owners aim to provide a comfortable cozy retreat in walking distance to some of the best scenes that Tobago has to offer.
